

# E-Scooter Sidewalk Usage at UMD

IC-TEAM #22010

**Analysis Tool:** ArcGIS

## KEY FINDINGS:

- The number of infraction trips decline from September to November
- Top Infraction area mostly located around academic & residential buildings

## Insights

- Weather & Holidays might be the key factor of the declining infraction.
- Uphill area where also has a heavy traffic drives people to ride on the sidewalk.
- Since there's a shortcut to campus by the Varsity, which deter people from riding on the main road.
